PROJECTS

PORTFOLIO :

Built with React.js, my portfolio exhibits frontend skills in HTML, CSS, and JavaScript. It presents diverse projects with optimized performance and responsive design, showcasing my proficiency in web development

Weather App :

Engineered with React.js, this application delivers real-time weather updates. Leveraging responsive design and efficient data handling, it showcases my proficiency in creating intuitive, user-centric interfaces for optimal user experiences in weather tracking.

Car Villa :

A responsive website built with HTML, CSS, Bootstrap, and JavaScript, enabling seamless browsing and purchase of premium automotive deals. Intuitive navigation ensures an enhanced user experience.
